

Performance Based Studies Research Group

Have you experienced inconsistent project performance, where budgets are exceeded, schedules are delayed, and your expectations are not met? Are you using increased effort and resources managing the vendors you have hired? Have you seen the negative effects of bureaucracy and decreasing accountability within your organization?

The **Performance Based Studies Research Group (PBSRG)** at Arizona State University has developed a **Best Value Business Model**, which has been proven to consistently increase project performance and transform organizations into more efficient environments.

The PBSRG integrates with your organization, educates your personnel, and facilitates the implementation of the model, which consists of procurement technology, project-management strategies and organizational change methodologies. Best Value possesses a unique and rigorously tested approach to:

- Identifying and Hiring Expert Individuals and Vendors
- Pre-Planning
- Minimizing Risk
- Alignment and Optimization of Resources
- Performance Measurement of Projects and Personnel

The model is based on leadership principles, driving accountability through measurement, and helping to create an environment that reduces the effects of bureaucracy.

Our Best Value Model has been implemented hundreds of times, delivering billions of dollars in projects and services across diverse industries...All at a high level of success.

- 17+ years
- 900+ tests
- 98% satisfaction
- \$4.6 billion of projects procured

We are researchers and educators that offer continuous support in the form of:

- On-site implementation and training of the Best Value approach, tailored to your organization's needs.
- Transfer of all the process tools, systems, models, templates, and technology that we have refined for over 15 years.
- An online Masters of Science degree program through Arizona State University's Ira A. Fulton Schools of Engineering.
- International year-round seminars and an annual conference.

At PBSRG, we help you minimize costs, by increasing efficiency. Are you ready to maximize your performance? Contact us today to learn more: (480) 965-4273 | www.pbsrg.com
